timber venetians

The warmth and beauty of natural timber makes these blinds a very popular choice for a diverse range of styles, from contemporary apartments to heritage homes, adding elegance to any setting.

All of our venetian blinds are beautifully handcrafted, resulting in a far superior product which we believe to be the finest on the market.

Features

Choose from the rich warm tones of Western Red Cedar or the very popular Madera Natural Timber range through to the cool crisp whites of the Woodlook collection.

Western Red Cedar is renowned for its natural beauty and outstanding physical properties. Madera Natural Timber is the economical alternative in natural timber blinds and the battens and pelmets in our Plantation style roman blinds and panel glides co-ordinate beautifully. The Woodlook Collection offers a beautiful colour range and is an excellent product for wet and high humidity areas due to its non-porous surface.

Venetian blinds come in a variety of finishes and colours. Select from oiled, stained, painted or lacquered. The semi-gloss lacquered finish is UV cured to create a fade resistant non-scratch veneer. Easy to clean and low maintenance, it is guaranteed for 5 years against peeling, flaking or blistering.

A decorative deluxe pelmet is standard on all our venetian blinds.
